Creating a world where no-one is isolated from a learning opportunity

Prison Education DPS listed for in-cell learning

Hello.

Meet Coracle

A coracle is a small boat, used since Roman times. These lightweight craft are so portable that a fisherman can pick them up and carry them on their shoulders.

Coracle Inside is synonymous with this flexible vessel.

Our learners can carry a rich library of knowledge, for accessing whenever they want.

We've seen how the use of learning technology can help people create a sense of achievement

Together we can help develop skills that will equip them for the outside world.

> **For offenders serving long sentences, there may be a dissonance between the role technology played in the world at the time of their incarceration and the increasingly digital world of today.**

Coracle Inside is a Digital Learning Platform (DLP), developed to allow prisoners access to digital content in-cell, without needing the internet

Developed with significant input from Learning Together, MoJ and HMPPS, we have successfully trialled in HMPs Whitemoor, Warren Hill and Grendon since 2017, and now being rolled out further across the prison estate

Learning Together brings together people in criminal justice and higher education institutions to study alongside each other in inclusive and transformative learning communities. Learning Together courses are academically rigorous and their design and delivery builds upon and, through evaluation, advances educational, sociological and criminological research and best practice.

Learning Together

Key Benefits:

- No internet access
- **Secure:** MoJ pen-tested and approved
- Low cost
- Learning records follow individuals with through the gate connection on request
- 24-hour in-cell learning
- Develop digital skills
- Remove isolation for learners
- Patent pending Coracle Inside Hub enables secure sync

Revolutionising education for hard-to-reach learners

Prisoners are issued with totally locked down laptops or tablets with Coracle Inside installed

Our patent pending 'Coracle Inside Hub' means we can securely sync learning materials, monitor outcomes, assess and accredit our learners' work, whilst ensuring total secure separation of learners from the internet.

Supporting Isolated Learners

Secure MoJ approved Digital Learning Platform that enables:

- ✓ Skills gap analysis
- ✓ Access to approved course materials
- ✓ Tests and assessments
- ✓ Evaluation and feedback
- ✓ Self reflection tasks

Without a connection to the internet.

Skills Development

Coracle Inside supports skills development and provides tools to measure impact and outcomes.

- ✓ Academic subjects from entry to university level
- ✓ Vocational skills training
- ✓ Employability and personal skills education and assessment
- ✓ Digital health and wellbeing interventions

Any course content catered for...

- ✓ Word processing and spreadsheet tools to support any educational activity
- ✓ Video, audio and animation supported
- ✓ Interactive workbooks and questionnaires
- ✓ Document and image libraries
- ✓ Self-reflection and assessment tools

Service and Support

We support your vision by providing national security cleared non-networked devices, help with Security Operating Procedure (SyOps) documentation as well as technology and student Compacts.

" "The challenge of learning how to use the devices prompted new conversations and connections with family members. The mother of one of our students bought the same laptop as her son so that they could learn together."

The 2019/20 guide for prisoners and ex-offenders seeking funding support for personal development and resettlement purposes

Each year, the Hardman Trust provides a directory dedicated to all prisoners as well as their families

The aim of the directory is to help prisoners preparing for release and ex-offenders after their period in custody. The directory gives access to many pieces of advice and references a high number of friendly organisations, including funders and employers. It also provides many articles written by ex-offenders to share their experiences.

Working with the Hardman Trust, our developers donated time and expertise in order to create a smartphone app of the Hardman Directory for both Android and iOS devices.

Glossary

Jargon [n] words used by a profession that are difficult for others to understand.

We know that industry gobbledegook can be annoying and a full glossary is found on **coracleinside.com**.

Here are some of the key terms relating to digital learning:

Asynchronous learning

Interactions between instructors and students that occur periodically and with a time delay. For example, self-paced courses.

Blended learning

Where a programme combines face-to-face classes with digital content for self-directed learning.

Coracle Inside Hub

Patent pending box of tricks that enables Coracle to connect fully locked down devices to a printer or to allow secure syncing and updating of content.

DLP

Digital Learning Platform (see LCMS / LMS).

E-Learning

Broad term to describe the use of digital media in education.

Flipped classroom / Flipped learning

Where learners work through digital content in their own time, outside of a classroom. Face-to-face time is then used to discuss problems and examples.

LCMS / LMS *(Learning Content Management System / Learning Management System)*

Software platform used to manage the digital learning: a data repository and delivery interface.

LRS *(Learning Record Store)*

A digital place to store learning records. Coracle's LRS means learning records can follow students as they move around secure environments and beyond.

VLE *(Virtual Learning Environment)*

A digital platform for managing and delivering learning materials. Coracle Inside is an innovative Digital Learning Platform (DLP) embodying a secure (offline) Virtual Learning Environment (VLE).
